PROFESSIONAL SUMMARY

AI/ML student at Karunya Institute of Technology and Sciences passionate about building intelligent software and IoT-based real-world systems. Experienced in Python development, AI projects, embedded systems, and hackathon-driven innovation. Strong interest in scalable technology solutions.

EDUCATION

Karunya Institute of Technology and Sciences 2025 – 2029
B.Tech – Computer Science and Engineering (Artificial Intelligence & Machine Learning)

Bharathidasan University 2024
Diploma in Computer Applications (DCA) – First Class with Distinction

TECHNICAL SKILLS

Languages: Python, C, C++, JavaScript, HTML5, CSS3
Frameworks: React, Next.js, AI/ML, IoT, Embedded Systems
Tools: Git, GitHub, Arduino IDE, MATLAB, VS Code, Blynk, Canva
Core Areas: Automation, Intelligent Systems, Real-Time Monitoring, API Integration, Version Control, Problem Solving

PROJECTS

Saral Mandi — AI-Powered Agricultural Market Intelligence Platform
Python, AI/ML, Data Analytics

- Architected an AI-driven platform to help farmers analyse crop market trends using machine learning workflows.
- Designed scalable predictive analysis concepts for smart farming ecosystems.

UrjaSaathi — AI Smart Electricity Awareness System
Python, AI, IoT, Energy Analytics

- Engineered an intelligent energy-awareness platform for electricity monitoring and appliance insights.
- Built with an India-first accessibility approach for middle-class households.

AquaX — Smart Water Intelligence & Monitoring Platform
IoT, Embedded Systems, Automation

- Developed a smart water monitoring solution integrating IoT-based sensing and real-time environmental monitoring concepts.

IoT Smart Waste Management System
Arduino, C++, Blynk, IoT

- Engineered a real-time waste monitoring system using ultrasonic and IR sensors with live dashboard integration.

Climate Trends & Disease Outbreak Prediction
Python, Machine Learning

- Developed a machine learning model correlating climate variables with disease outbreak patterns.

TECHNICAL ENGAGEMENTS

Hackathons: Google Cloud Digital Campus 2.0 HackSprint, Matrix Ideathon 2026, Mindkraft 2026
Workshops: IoT Boot Camp (Karunya), Logic to Magic Python Boot Camp, Quantumania (Quantum Computing)
Events: Multi-Agent Coordination Arena (Mindkraft 2026), Vortex (IIT Madras x NIT Trichy), Machyard 2026

CERTIFICATIONS

- Cisco Python Essentials One & Two
- Cisco Introduction to Internet of Things
- Front-End Development Journey – Infosys
- MATLAB Onramp – MathWorks
- NSE Financial Awareness Certification
- Diploma in Computer Applications (DCA)
- Graphic Design & Office Automation
